Blackhead in Turkeys.

In many localities the growing of turkeys has become almost extinct as the result of a malignant parasitic disease known as blackhead. This disease is not only extremely contagious, but it is very much aggravated through inbreeding, which depletes the vitality of the stock of breeding turkeys and makes it possible for the germs to gain a destructive foothold. It is called "blackhead" because the heads of those affected turn yellow or black, but this is only a symptom, as the seat of the disease is in the liver and intestines. It is usually contracted from other fowls, but is primarily caused by the absence or deficiency of mineral elements in the feed, which, owing to the semi-domestic nature of the turkey, are an essential aid to proper food digestion. In its wild state the turkey was accustomed to supply itself with these elements, which are found in minute portions in various grains, seeds and grasses, and this disease is unknown to the wild turkey. It has been claimed that there is no known specific for this destructive disease, but a preparation that is being marketed under the name of Bourbon Poultry Cure has now proven a most efficacious remedy for the cure and prevention of this ailment, and large turkey raisers are using it with great success, many saying they have saved their birds with it after having lost half their flocks. The disease is most prevalent in the summer months and at the beginning of cold weather in the fall.

Recital.

An occasion of pleasure will be the recital given at Normal Chapel Tuesday evening at 8 o'clock, May 27th, by Madame Edla Lund, Swedish mezzo-soprano, and Miss Irma Naphide, Reader, assisted by Miss Edna Gwynne, pianist and accompanist. Madame Lund's rich soprano displays a full smoothness that is delightful and her rendition will be truly exquisite, and will show the finish of the true artist. 66-4t

Church Notes

For the first time in the history of Presbyterianism the four principal divisions of the church joined in a union communion service at Atlanta.

The Southern Baptist Convention chose Nashville as the meeting place for the 1914 convention and asked the States of the convention to raise \$18,000 that the Louisville Seminary owes for educating ministers.

The Southern Presbyterian Assembly accepted the statement of belief submitted by a special committee and the Northern branch postponed action on the relations with the Union Theological Seminary until next year.

Five persons were consecrated to mission work in foreign fields at a meeting of the Women's Board of Missions, which is in session at Bowling Green in connection with the Cumberland Presbyterian General Assembly.

Eighteen persons were baptized last evening at the First Baptist church. Dr. Cook officiated and made a brief and appropriate talk. A number of the candidates were attendants at the Kentucky School for the Deaf, and Dr. Cook's remarks were given them in the sign language by Mr. Hickman Carter. Danville Messenger.

Building Tobacco Barns.

Bowman Bros. are building a number of tobacco barns now, having contracted to erect three large ones in the past few days. One is for John R. Gibson, one for Ernest Davis and the third for Jas. McKinney.

Found Sulphur Water

While drilling for water in front of their business place, the Normal City Laundry found a flow of sulphur water, which, while not strong, is clear as a crystal. This was found at a depth of about ten feet. Most of the drilling so far has been through solid rock.

Arizona's Anti-Alien Law.

Gov. Hunt has signed Arizona's new alien bill. It prohibits any alien whether Caucasian or Mongolian descent, from owning land in Arizona if he has not declared his intention of becoming a citizen. The law bars not only Asiatics, who cannot become citizens, but also many wealthy Mexicans who live on the American side of the line.

Bowman Mammoth Cave Trip.

Personally conducted, three-days' trip to Mammoth Cave, leaving Richmond Thursday, June 5. \$12.75 pays all expenses. Different from ordinary excursions. Party limited. Also all-expense tours to the Seashore, the Lakes and Yellowstone Park in July and August. Write Bowman's Tours, Versailles, Ky., for folders and booklets, or see the L. & N. R. R. Agent. 62-7t

Doing Some Advertising.

The Richmond Coal & Supply Co., T. C. Vaughn, general manager, is doing some advertising with the brush now, but later in the season they will take to the newspapers. They have engaged John Mershon, the artistic sign painter, to cover up W. W. Broadus & Co. and place Richmond Coal & Supply Co. wherever they find it. He is also preparing a big sign to be placed in front of their place of business. Mr. Vaughn believes in advertising and is going to do lots of it.

Three Farms at Auction.

Those three nice little farms that Harris & Speakes, of Paris, will sell at auction on Wednesday, May 28th, should sell for good money. They are well located and the soil is fertile. A splendid opportunity to get a nice little home is offered. If the advertisement and plot, which appears on another page, does not give you sufficient information, call on either L. M. Scrivner or H. C. James, who will take pleasure in telling you all about the places.

A Big Concern

Not all of our people know what large and up-to-date enterprise we have in the Normal City Laundry. In fact we did not know ourselves what a big thing the laundry is until we visited the busy place the other day. Equipped with the most modern machinery and managed by people who know their business, work is turned out at this laundry that compares most favorably with that of any other concern of its kind in the country. Some twenty-five people are employed and things in general run like clock work. We found Messrs. Joe J. Embury and H. R. Tavis, the genial proprietors, making a hand and a half each, but not too busy to show the Climax the many modern machines they have in operation. Some of these the Normal City Laundry will be seen operating its extensive business in a big brick business house on Main or some other prominent thoroughfare of the city. The business justifies a better building and a more prominent location. Watch out for a change. 61-tf

Deeper planting and rotation of crops, he mentions among the hopeful symptoms, as well as a favorable spring. A 96 per cent. acreage of dark tobacco is commented on, while the report shows the condition of the dark tobacco to be 90 per cent. and the burley only 83 1/2 percent having damaged the latter. An average corn acreage and a good wheat stand are early apparent.

ARE YOU RUN DOWN? Awaken to The Danger And Aid The Weakened Kidneys.

Kidney sickness often runs you down to the verge of collapse before you know the cause. When you seem unable to pin your mind to any task, your back aches and you cannot do an ordinary day's work, it is time to ask yourself this question: "Are my kidneys working right?" The answer may be easily found.

Weak kidneys slacken their filtering work and the uric acid circulates with the blood, in many cases, attacking the brain, nerves, muscles and vital organs. Don't wait for the serious trouble—begin using Doan's Kidney Pills when you feel the first backache or first notice urinary disorders. This remedy has given new life and strength to thousands.

Proof of merit in a Richmond citizen's statement: Mrs. J. Davis, 420 Walnut street, in Richmond, Ky., says: "I was nervous, dizzy and at night could not rest well. I felt tired in the morning and my back pained me. Doan's Kidney Pills were recommended to me and I used them, getting them at Middleton's Drug Store. They gave me entire relief."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Feeling the Force of Public Scorn.

With the mark of Cain on his brow, Pardon Powers is shunned by all democrats and other men of standing in the city of Washington. Republican Leader Mann recommended that he be placed on the committee to investigate the "Hill Billies" work. Judge Barkley, Ollie James' successor from the first district, positively refuses to serve on any committee with him. When the new Congress was sworn in, the democrats declined to go to the speaker's desk with him and he had to be sworn in with the Illinois delegation, which probably had sold its stomach. And now comes Mr. Dismann, of Powers' own town of Harboursville, to disclaim the endorsement of Powers for him to be collector in this district, saying that he neither asked, does not desire nor would he accept Powers' aid for anything; that if he has endorsed him it was without his knowledge and that if his success depended on him in the slightest degree he would prefer defeat. That's the way many honest men feel and they think the more of Mr. Dismann for utterly repudiating his thrice-convicted townsman.

Our own Congressman declined to remain at the table with him when he started to sit at it and spoke to Mr. Heim, who responded that he did not care to make his acquaintance.

Verily, the way of the transgressor is hard! If Powers has any feeling, he should think he would feel better in prison than to be shunned, snubbed and ignored as he is. Absolutely without influence, the Eleventh District is practically without representation in Congress, but that's its fault. We tried to get it to send our friend, Ben V. Smith, to represent it. The mistake it made is every day more apparent.

We have been asked more than once: yes more than an hundred times, if we did not regret the fact that we converted the Climax into a semi-weekly. In answer, we have always and will always say "No." We are glad we did it and our only regret is that we did not begin sooner. More work and more expense, nearly double, but then we have the delightful satisfaction of being able to tell the news in something like the season it transpires. As has been stated before in these columns, it is our great desire to run a daily in Richmond and we are more than ready when the time arrives or the occasion demands it. The public is showing its appreciation of our enterprise with an unstinted patronage and an endorsement that might turn younger heads and make them grow larger. This we duly appreciate and we shall show that appreciation by making a greater effort to give to the people of this God-favored section a paper that they will not be ashamed of, but on the contrary feel some pride in distributing among their friends in other sections of the country. No, no, dear reader, no weekly for us. We knew what a semi-weekly was and the work it necessitated and did not go into it with our eyes shut. We have no occasion for regret and really our only regret is in the premises is that for the present we can not serve the Climax to its thousands of readers six times a week instead of twice.

It was reported on the streets yesterday that Hon. W. B. Smith had been endorsed by Senator James for Collector and later that John R. Gibson had landed the coveted plum. Neither report was verified, but it will ultimately be one or the other. Which? That fifteen dollars continues to remain in "our inside pocket, don't know," that the collector's office will come to a Madison county man. We claim to be some prophet when it comes to the political game.

JOHN F. ANNET, the young attorney with whom Harry Thaw entrusted \$25,000 to procure his release, was convicted in New York Saturday of attempted bribery, the evidence showing that he offered Dr. Russell, superintendent of the Matteawan asylum, \$20,000 to aid in the convicted man's release. If Thaw had been electrocuted, as he should have been, for murdering Stanford White, this and many other troubles would have been averted.

WITH a man killed at church in Rockcastle county and a woman dashed into eternity in a runaway on her way to church in Crittenden county the same Sunday, looks like it is getting kind 'or dangerous to go meetin' in old Kentucky. But then, such things do not happen often, and you should not get alarmed.

THROCKMORTON A. HILL, one of the democratic leaders of California, has threatened to circulate a petition for a referendum vote for the Webb anti-land bill, passed by the California Legislature. Hill claims that a popular vote on the bill would be justified to show just how the people of the State feel on the anti-Japanese legislation.

The Government May crop report indicates that last year's bumper crops will be eclipsed. There certainly must be some mistake. The Republicans are now in power hardly anywhere and they have always claimed the credit for God's own generosity to husbandmen.

The official report of the tobacco sales at Lexington during the season just closed shows that 42,177,255 pounds was disposed of at an average of \$12.91. The largest loose-leaf tobacco market in the world is certainly maintaining its supremacy.

HENRY M. FLAGLER, famous builder of the Florida East Coast railroad and the Key West extension, died at West Palm Beach, Fla., this week, and thus has passed a man who did more to keep Florida prominently in the eyes of the world than all other forces combined.

SOME of the sheep raisers are also raising Cain because the Democrats propose to take the tariff off wool. But what difference does it make when they have to sell wool lower, if they can get what they want at correspondingly low prices?

FRIENDS of Judge L. W. Bethurum, of Mt. Vernon, are urging him to run for Congress in the Eleventh. He ran against Hon. Harvey Helm several years ago and came second, with two in the race. Evidently that gave him hope.

See Mr. Perry.

H. L. Perry, the West Main street druggist, wants to talk hot water bottles to you. Read his advertisement and see him for further particulars.

Tobacco Beds Scraped.

The following is sent from Madisonville: On the farm of D. N. Lamb, in the western part of this county, over 200 yards of plant beds were scraped. Mr. Lamb was summoned before the grand jury, which is in session, and said he heard the parties while they were committing their depredations, but thought it was some of his calves in the field and paid no attention to it, but when he went to his plant beds the next morning he found the following written on a card:

"Hill Billies' work. Do you think it good? You talk a little too much, but your hand has said more."

"Second Night Riders."

Mr. Lamb has been outspoken against the destroyers of plant beds.

Only One Way to End Calamity

Reach the raw, tender, inflamed membrane infested with Catarrh germs, and destroy them. You can't reach the nooks and crevices with liquid preparation—there is only one way—breathe the germ destroying air of BOOTH'S HYOMEI (pronounce it High-mee) directly over the inflamed and germ infested membrane. HYOMEI contains no opium, cocaine or other harmful drugs, it is a balsamic air made of Australian eucalypti, thymol and some Listerian antiseptics. It is guaranteed to end the misery of Catarrh and Croup or money back. It's fine for Colds and Coughs.

Ask B. L. Middleton about Booth's HYOMEI outfit today—it is only \$1.00 and he guarantees it. Extra bottles, if later needed, 50 cents. Just breathe it—no stomach dosing.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:
100 Per Cent. Digested

Bread made with
phosphate powder:
68 1/2 Per Cent. Digested

Bread made with
alum powder:
67 1/2 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Horrible to Contemplate.

If the following from the Harrodsburg Herald is true, missionaries should be sent to that city at once and kept there until the people are impressed with the real value of human life:

"It's cheaper to kill a man in Harrodsburg than it is to sell liquor. One fellow is serving 472 days for selling whisky without a license and another fellow is serving 365 days for blowing a man's brain out."

Who Stole the Plans?

Speculation is rife in Washington as to who stole the plans of the new dreadnaught Pennsylvania. The plans contained the secret arrangements of the electrical apparatus which will control the fire of the twelve fourteen-inch guns. It is said that the plans would be of value only to a foreign government in case of war with the United States. Hence the supposition is strong that some Japanese spy is responsible for their disappearance.

News comes from Crab Orchard that George Bronaugh, aged about 30, is dead of a complication of troubles. He was a son of Mr. and Mrs. R. W. Bronaugh and a grandson of Dr. G. W. His death has cast a gloom over the little town of which he was a very popular citizen. 66-11

Eastern Normal Ball Team to Play All Next Week.

The Eastern Normal ball team, under the management of Prof. Keith, will leave Monday for a week's absence, during which time six games of baseball will be played. St. Mary's will be its first stop and a game will be played at that place Tuesday afternoon and a double-header Wednesday. The club will go on to Elizabethtown and cross bats with the Hardin county high school boys on Thursday afternoon, and on Friday and Saturday at Bowling Green against their old rivals, the Western Normal team. The continued rains of this week have prevented the Eastern Normal boys from practicing, but Prof. Keith thinks his club will bring back quite a number of scalps, notwithstanding. He will carry the strongest team that has left Eastern Normal in many a day, and Richmond people are banking on their winning at least four games of the series. 66-11

Attended The Grand Encampment.

Messrs. B. Juet, A. R. Juet, W. J. Steward and E. W. Warford, who attended the Grand Encampment of Odd Fellows at Shelbyville, are back home, glad that they went. At this meeting Mr. B. Juet, who has filled the important office of Grand Patriarch, surrendered it to Mr. C. A. Nelson, of Louisville. He was highly eulogized on his splendid work during his tenure of office and general regard was expressed that his term had drawn to a close. "The meeting was a most successful and interesting one and we all feel benefited by having attended its sessions," said Mr. Juet. Over 100 delegates were present and some magnificent team work was done. Old Fellowship in all its phases was exemplified by the Mt. Horeb Encampment of Louisville, the blue-ribbon team workers of the State. An elegant banquet was enjoyed and a good time generally was had. The Encampment will be held at Lexington next year. 66-11

Board of Education Elects High School Teachers

The Board of Education for the city of Richmond at its meeting the other night elected the High School and seventh grade teachers, the others, including Supt. D. W. Bridges, having been elected at a previous meeting. Prof. M. L. Caneer, principal of the high school, was re-elected, as were Miss Ruth Crow and Alma Rice teachers. Mr. Ray, of Transylvania University, was elected to succeed Miss Florence Rogers, of Lexington, who did not apply. She has taught two terms here and her work has been highly satisfactory. Miss Lelia Harris was chosen teacher of the seventh grade in the place of Miss Stella Hendon, who goes to the Kirkville High School next year. The Board of Education is composed of Messrs. Z. T. Rice, W. E. Blanton, A. M. Davison, John Allman, Jesse Cobb and A. D. Miller, most of whom were present. 66-11

That Race Course of Mr. Colyers.

No, dear reader, Mr. H. H. Colyer is not going to start a race course here, but he says he is merely showing the public how he is going to run for sheriff in the primary of August 2. Read his advertisement in another column. 66-11

Ricci's New Electric Sign.

That is a mighty pretty sign Ricci, the confectioner has just put up, and seems to us it gives bad advice in this day of high cost of living. "Eat," it says, but the question that is puzzling the minds of the people hereabouts is, how can a fellow afford to do such a thing? 66-11

The Governor's Picture Creates Applause.

When Gov. McCreary's picture was shown at the Opera House Wednesday night in the Hines Races film there was deafening applause. This shows to some extent the estimation in which Kentucky's model Chief Executive is held in his home town. By the way, the pictures were exceptionally good and an immense crowd witnessed them. 66-11

Back From a Successful Raid.

Deputy U. S. Marshals W. M. Mays and G. J. Gentry and General Deputy Collector G. W. Castle are back from Owsley and Jackson counties, where they smashed two illicit stills, one in each county. They captured Leonard Pearson and Leonard Dunn, the operators, and took them before Judge Beatty at Beattyville who held them over to the court at Jackson in \$200 each. The distilleries were both small and only about 200 gallons of beer was found. This they destroyed. 66-11

Big Strawberry Patch

Mr. J. E. Abrams, of the milling firm of Parks & Abrams, has the largest strawberry patch in this section, but unfortunately he is not getting a great deal of the luscious fruit just now. "Pittsburgh Perfect" Fence

CONSIDER SIZE OF WIRE When Buying Fence
DON'T BE FOOLED BY Weight per Rod or Roll

There's no "bunkum" about weight per roll when you buy "Pittsburgh Perfect" because it is constructed without using extra wire to make the fence-joints. The extra weight of the joints in all wrapped, clamped, twisted or tied fences supplies no extra strength, but actually weakens these fences by persistently dragging down the panels, wearing them out before their time and making you buy more before you should. "Pittsburgh Perfect," the only fence with Electrically Welded Joints, is a one-piece fabric of unequal strength, durability and economy, because we eliminate the expense of extra wire, and put this money into extra quality.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

"Pittsburgh Perfect" Brands of Barbed Wire, Bright, Annealed & Galvanized Wire, Twisted Cable Wire, Hard Spring Coil Wire, Fence Staples, Fencing Netting Staples, Regular Wire Nails, Galvanized Wire Nails, Lead Roofing Nails, Single Loop Bale Ties, "Pittsburgh Perfect" Fencing. All made of Open Hearth material.

Best Medicine For Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure he knows what he is talking about. C. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1. Guaranteed by all druggists.

A slight cold in a child or a grown person holds possibilities of a grave nature. Croup may come on suddenly; bronchitis or pneumonia may develop; severe catarrhal troubles and consumption are possible results. Ex-Mayor Woods Asks Correction.

ECSTIS, FLA., May 18, 1913.

Editor Climax:—I read your paper regularly, and often wish I had time to write about my new home here. For the present, I content myself with correcting an incorrect statement recently made, to the effect that the present city administration was the first to pay off a cent of that old Water & Light debt that hung like a mill-stone about the necks of the council for nearly twenty years. I would not disparage the present council or mayor. Praise the Lord for all this good work—but in the interest of truth and history, suppose you reprint the following clipping exactly as it appeared in the Climax Oct. 30, 1907, while I was mayor of Richmond, the proudest honor of my life.

CITY COUNCIL PAYS ON AN OLD ACCOUNT
"In June 1906, when the Council's Finance Committee made up the budget of expenditures for the ensuing year, as required by law, before making the tax levy to pay municipal expenses, Mr. T. J. Smith, Chairman of the Finance Committee, argued for an allowance out of the current fund to be applied on a reduction of the old debt due to the Richmond National Bank on \$9,300 worth of Water & Light vouchers that had been running for ten years at 6 per cent. interest, and costing the city \$554 annually interest."

"Accordingly two weeks ago when the Richmond National Bank settled its last year's tax the entire amount, \$952 was applied upon their old claim against the city, thus reducing it nearly \$1,000, and thus shutting off about \$60 annual interest besides. It is worthy of note that this is the first time any Council in ten years has had funds to spare to apply on a reduction of this floating indebtedness of the city. And it may be stated that with the reduction thus made Richmond's only outstanding floating debt (exclusive of \$11,000 school bonds, not due) amounts now to about \$8,400, the smallest indebtedness of any city in Central Kentucky, without exception."

Think of it, O ye citizens of Richmond! That was money saved to the city after only one year without saloons! They said our town would go to hell, our stores close and trade go to Winchester.

Now I hear with gratitude the present council, still without saloon aid, has paid off the balance of the old debt that was incurred and maintained undiminished while we had a dozen "breathless of hell," as Jim Stouffer frequently denominated saloons.

Is it possible Richmond has come to see the time so quickly when it "pays to do without saloons"? Debts paid, people contented, property increased in value, schools enlarged, business better and crime and disorders decreased! Praise God from Whom all blessings flow!

And yet a kind word for those who then quit the liquor business and embarked in other lines. They know I stood by them, encouraged them, patronized them and was as loyal to them as I was bitterly opposed to their former occupation.

I am happy down here, except for an occasional homesick feeling for Pa and Ma Willis, at Crab Orchard Springs. Yours fraternally,

CLARENCE E. WOODS, "Ex Mayor" of Richmond.

(We have not consulted our files, but we are sure that we did not say that no other council paid any part of the debt which hung over the city. What we intended to say, and what we think we said, was the city had paid the last cent of its indebtedness, something that had not been done before in years. It is immaterial with us, however, and we cheerfully accord to Mr. Woods his way in the matter.—E.)

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin disease and the blood." The skin must be cured through the skin. The germs must be washed out, and the skin must be cured through the skin. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist without using D.D.D. Prescription is as much a specific for eczema as quinine for malaria. He has been prescribing the D.D.D. remedy for years. It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cure you nothing unless you find that it does the work.
